

*“Transforming Ideas into Reality”*

# INTRODUCTION

Welcome to SkyDec Engineers! We are a team of talented and experienced people who are passionate about designing functional, innovative, and beautiful spaces that meet the needs of our clients.

With several years of experience in the industry, we have worked on a diverse range of projects, including Healthcare interiors, Hospitality interiors, and architectural services. We pride ourselves on our ability to create designs that are not only aesthetically pleasing but also practical and sustainable.

We have had a great opportunity to work with clients like Fortis, CK Birla Hospitals, Philips, Siemens Healthineers, Blue Star, and Canon Medical.

# Meet Our Founder

## Sunil Choudhary

Sunil Choudhary is the founder of SkyDec Engineers, a specialized interior design firm for hospitals. He graduated from Delhi's School of Planning and Architecture in 2004, earning a bachelor's degree in planning. Initially starting his entrepreneurial journey with Kaizen Interiors in 2010, Sunil focused on delivering exceptional design solutions for residential, commercial, and hospitality projects. However, his deep passion for creating remarkable spaces led him to narrow his focus on healthcare design. Thus, SkyDec Engineers emerged as a dedicated provider of turnkey interior solutions for hospitals, representing the culmination of Sunil's specialization in hospital interiors.
